

## OUR GOAL

*Shaping the future of Health in partnership for generations to come*

## OUR SERVICES

The group's significant growth has led to diversification and a focus on project delivery to health inclusive of the aged care sector. This strategic direction has been fostered by reputation as a result of return clients and recognised service excellence.

Tailored Health Services is able to deliver projects of high quality to the following clients:

- **Primary health facilities** inclusive of:
  - General Practices
  - Dental Practices
  - Day Procedure Centres
  - Specialist suites
  - Community health facilities
- **Aged Care**
- **Commercial Fit Outs**
- **Project Management Services**
  - Health facility Refurbishments
  - Health facility and health precincts
  - Maintenance Services

## HEALTH EXPERTISE

Utilising key personnel our health services comprise: assistance with facility licensing applications, accreditation preparation and review of quality and safety management. Tailored Health Services has also formed important strategic alliances within health inclusive of:

- Clinical consumable and equipment suppliers
- Interior design and customised furniture suppliers
- Accountancy firms to align design with financial efficiency

All of these elements in combination enhance our project delivery and return on investment to you as a Tailored Health Services client.

## RETURN ON INVESTMENT

Tailored Health Services manages an internal finishes team of carpenters, plasterers, electricians & painters. The establishment of this team has been initiated as a means of streamlining the management of direct project costs.

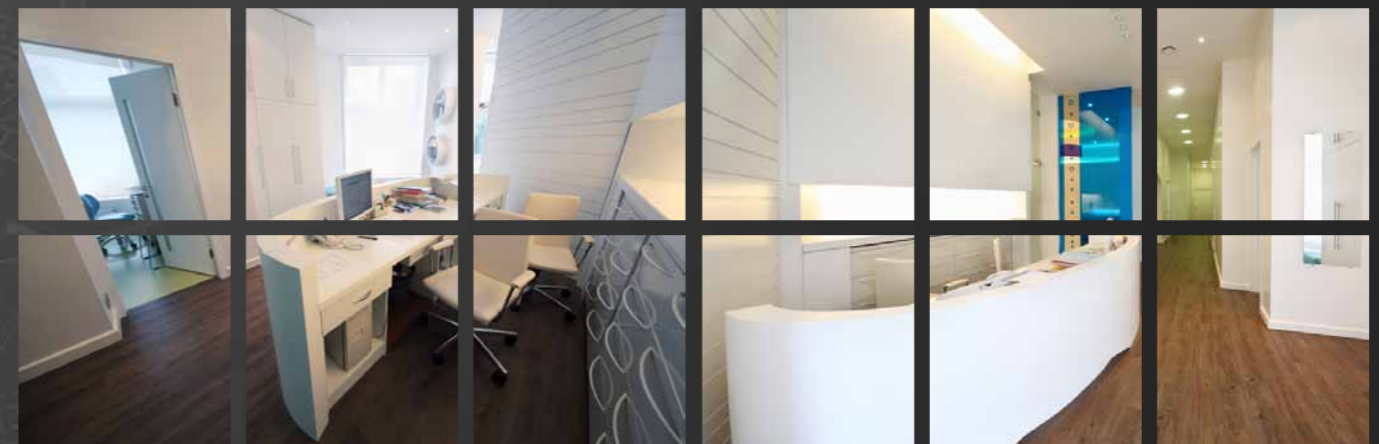

A major benefit of this service is the ability of Tailored Health Services to provide an economical build in a shorter time frame. Our lower costs and increased turnaround therefore increase return on investment for our clients.

## TIME AND BUDGET

- Tailored Project Group has an enviable on time and on budget record with all projects having been completed within contractual requirements.
- Tailored Project Group are able to manage all phases of the project including - master planning, design and construction in detail and monitor progress regularly against targets
- Project teams produce detailed reports to provide progress updates against all aspects of the project.
- Successful management of projects has enabled thousands of dollars of savings to the client to fund additional works.

## TESTIMONIAL

*"We have had several Major buildings delivered by Tailored Project Group. We found their work to be of such high standard and quickly and cost effectively delivered that we now are dealing in the first instance with Geoff and his team"* **Matt Rogers - R4 Property Group**
